Overtime App

Digitally Transform Your Overtime Process

Efficiently track and respond to employee overtime requests

A common challenge that many busy organisations face is relying on outdated manual processes to track employee overtime. This can easily result in errors, wasted administration time, and frustrated employees.

Our Overtime App simplifies the entire overtime process by giving employees the ability to easily apply for overtime, and for leadership to quickly respond to any requests. Introducing the Overtime App will result in improved efficiency, reduced administration time, and improved record keeping within your organisation.

Simplifying the Overtime Process

Employees can view pending and previously responded to requests

Leadership can view, accept, or reject requests from their team

Requests can be filtered by date for easy tracking

Integrates with the Azure Virtual Directory for instant team set up

User-friendly, with customisable drop down options

Export data to your payroll system

Employees must select a reason for overtime, with the option to add Additional comments

Employees can see at a glance how many hours of overtime have been approved or rejected
